

Men's football and women's netball teams take second place at the UoN Annual Sports Day 2018

It was a tough task for the men's football and women's netball Central Administration teams as they emerged second place at the first UoN Annual Sports Day on 28th February 2018. The teams comprised of members of staff from Central Administration where SWA staff had the most if not all, the most representation. SWA staffs were playing under the Central Administration umbrella.

The men's football teams were the first to play as they went head to head with the College of Biological and Physical Sciences (CBPS), Chiromo campus where they managed to beat CBPS 1-0. Their second match was with College of Education where they went to penalties and emerged victorious. This win booked the men's team a place in the finals where they met Collage of Veterinary Sciences (CAVS), but lost 1-0 after a tough game well played, placing them in second position.

On the other side of the sports ground, the ladies netball team was making great strides after they emerged winners in their first game with College of Biological and Physical Sciences (CBPS) where they beat them 4-1. Their second game was with College of Humanities and Social Sciences (CHSS) where CHSS players were a no show automatically giving Central a walkover. This earned Central a place in the finals with College of Health Sciences (CHS). CHS emerged winners placing Central in second position.

During the award ceremony, both women's netball and men's football teams were awarded second place trophies with team captains Lucy Mbugua (SWA) and David Bosire (SWA) respectively receiving the trophies.
